TEEN KILLERS AND SCHOOL SHOOTERS

Thirteen Causes of Juvenile Homicide

Juvenile Homicide is a multiple cause crime, and I believe it takes between three and six causes to create a possible teen killer or school shooter. I ranked the causes in the order that I see them most frequently.

1. Fatherlessness: No father, or abusive father
2. Unstable home, which could involve physical, sexual or mental abuse
3. Victim of bullying, which is the number one cause of school shootings
4. Obsession with violent entertainment, including video games and torture porn
5. Obsession with deadly weapons, including guns, knives and bombs
6. Suicidal ideologies
7. Use of illegal drugs, alcohol and medication
8. The desire to be famous
9. Involvement in cults, gangs or hate groups
10. Peer pressure from the wrong friends
11. Poverty
12. Lack of spiritual guidance and discipline
13. Mental Illness

Twelve Warning Signs of Juvenile Homicide

Violent juveniles will display some kind of warning signs before they carry out an act of violence. Usually planning their violent crimes for six to twelve months. Sometimes, there may only be one warning sign, but they frequently have trouble containing their violent plans. Many tell others before they kill. Here a few of the top warning signs that teen killers and school shooters might display.

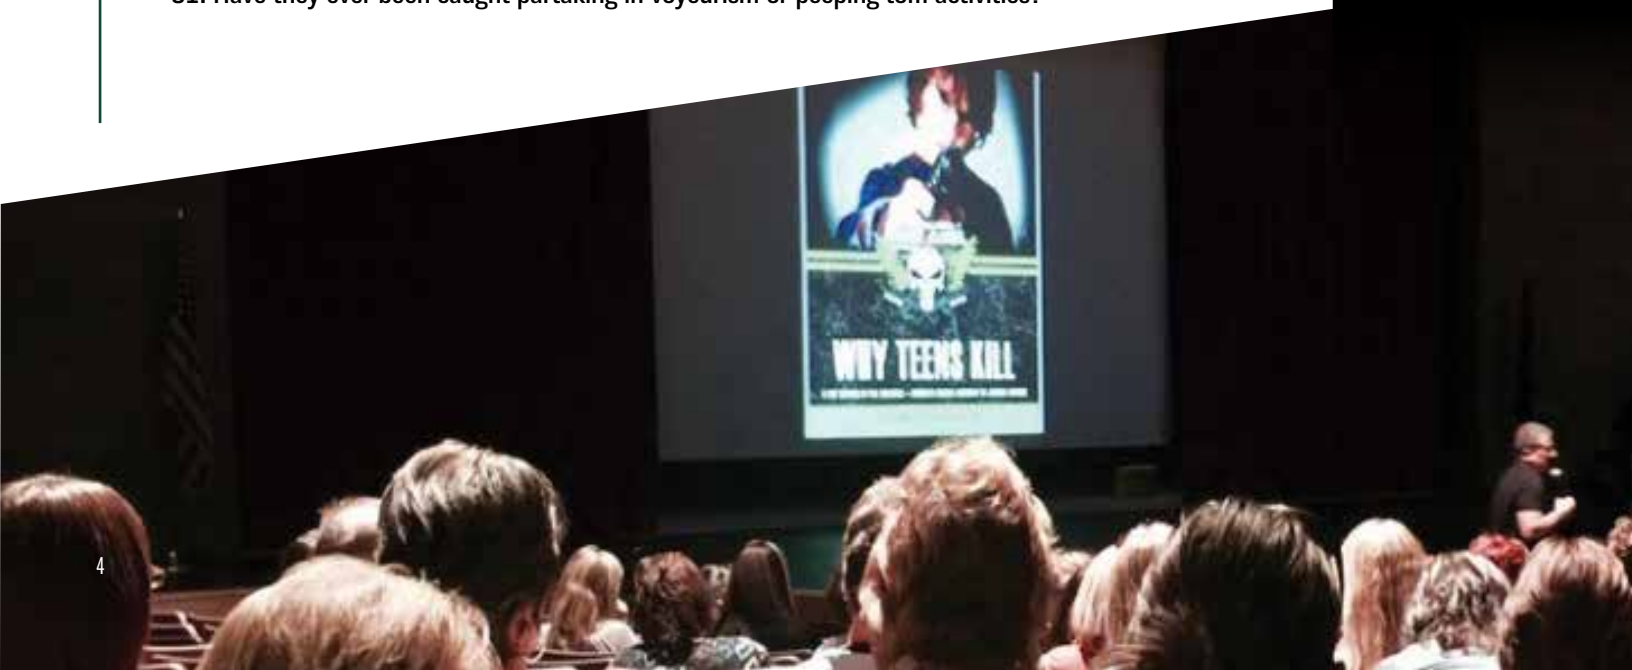

1. Cruelty to animals
2. Fire starting
3. Bed wetting into teenage years
4. Drawing of violent pictures
5. Taking photos and posting pictures displaying weapons
6. Making a verbal statement or hand gesture threatening violence
7. Violent or depressing schoolwork, artwork, drawings and writings
8. Posting violent thoughts and philosophies on-line and on social media
9. Fascination with deadly weapons including guns, bombs and knives
10. Obsession with violent entertainment, including violent video games and torture pornography
11. Change of clothing, dress, behavior, or peer group, usually in a darker direction
12. Fascination with other school shootings like Columbine, and other infamous killers

Six Triggers that Cause Juveniles to Kill

1. Suspension or expulsion
2. Being arrested, can be as minor as a traffic ticket
3. Dispute with parents over things like cell phones, curfew and video games
4. Breakup with a boyfriend or girlfriend
5. Major bullying incident at school
6. Parents forbidding them to date a boyfriend or girlfriend

CRIME PREVENTION AND SCHOOL SAFETY

Home Safety

- You must own two of three things to deter others from wanting to hurt you or your family. Those three things include a dog, a gun, and a security system with cameras.
- Large dogs like Boxers, Rottweilers, Dobermans, Pit Bulls, German Shepherds, and American Bullies are great watchdogs
- ADT and SimpiSafe are reputable security systems and reputable cameras include Nest and Blink XT
- Signage warning of a dog and surveillance cameras are a good deterrent
- Practice drills with your family, should someone ever break in during the night

Vehicle Safety

- Skip window stickers identifying where you live, attend church or include your children's names and school

Travel Safety

- Never tag your luggage with your name, address and phone number. The airlines will tag your luggage
- Live in Condition Yellow, so you can react if something bad happens. Never live in Condition White, unaware of your surroundings. Facing the door of a restaurant, sitting in the back row of the theater, carrying a concealed weapon, or not staying on the first floor of a hotel are behaviors that are Condition yellow.

School Safety

1. Help to move the mindset of your school leaders from Denial to Proactive and Prepared
2. Help teach all teachers and staff the warning signs of violence to detect possible violence
3. Deter potential killers by hiring an SRO to protect the school
4. Delay a potential attack until law enforcement arrives by locking exterior and interior doors at all times
5. Install a protective film to the windows of your school to make it difficult to break or shoot your way in. See the ad in this book for our preferred company.
6. Defeat the threat as soon as possible, mainly either by law enforcement stopping the attacker, or a staff member stopping the attacker. But, NEVER put yourself in harms way if an intruder is armed with a gun or knife. It's better to stay locked in a classroom with your students.
7. Preach to your students, parents and staff the mantra "If you see something, say something"
8. Remember, you can't stop violence if you don't know the warning signs. Bring Phil Chalmers into your school system to teach your staff during a professional development day.
